

# Getting Started With Umbraco Training

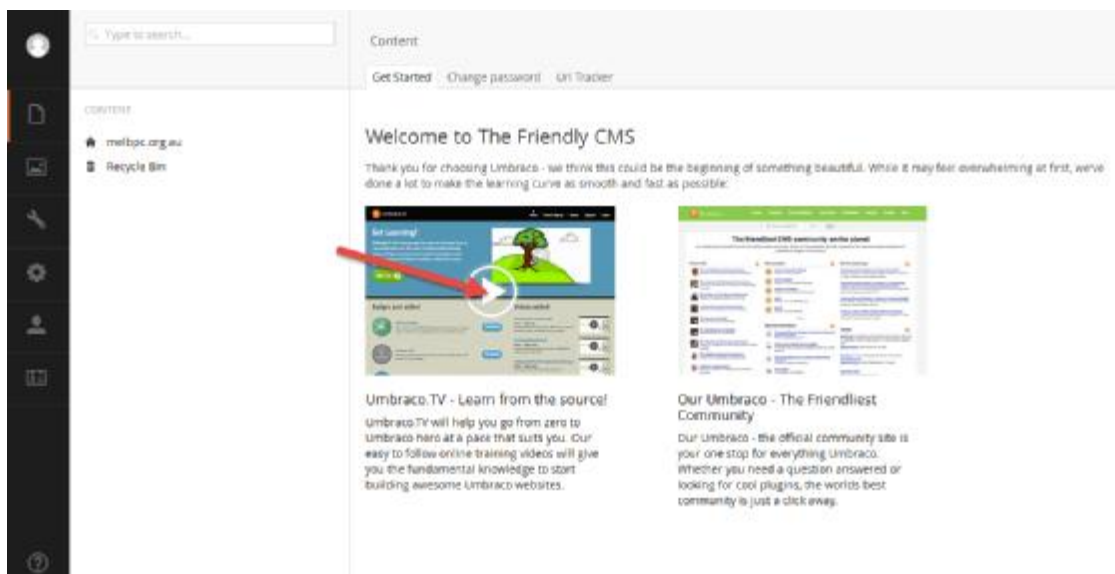

Enter the following address in your web browser .

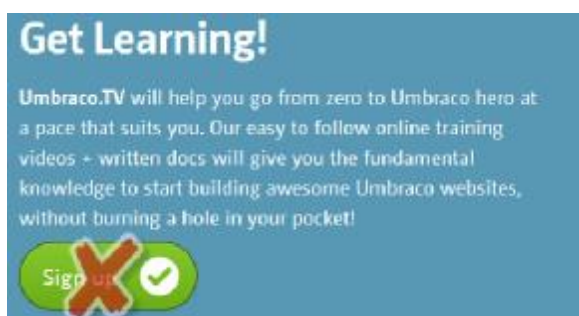

You will see a logon screen like this. Enter the logon and password you have been given.

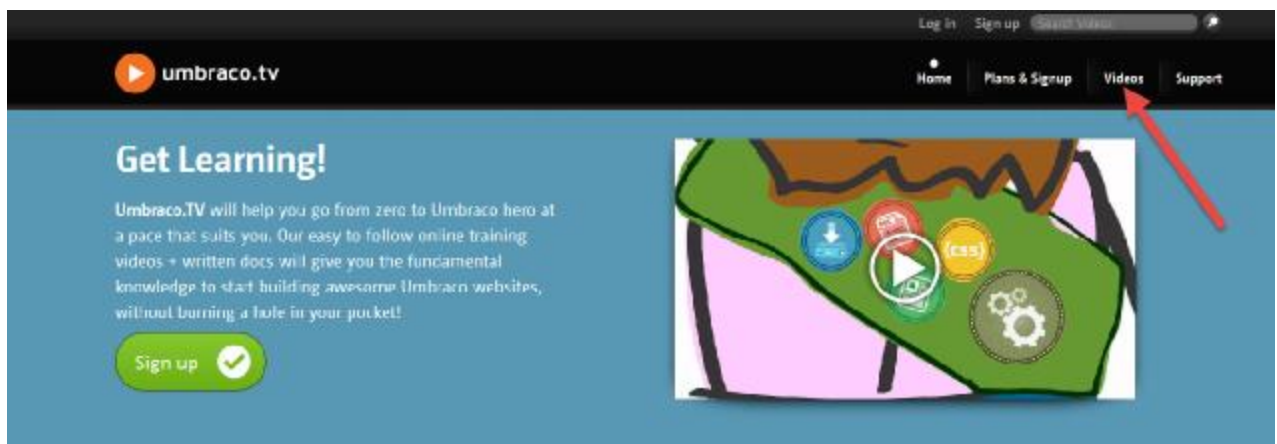

On the Welcome page Click on the Umbraco.TV Start Arrow

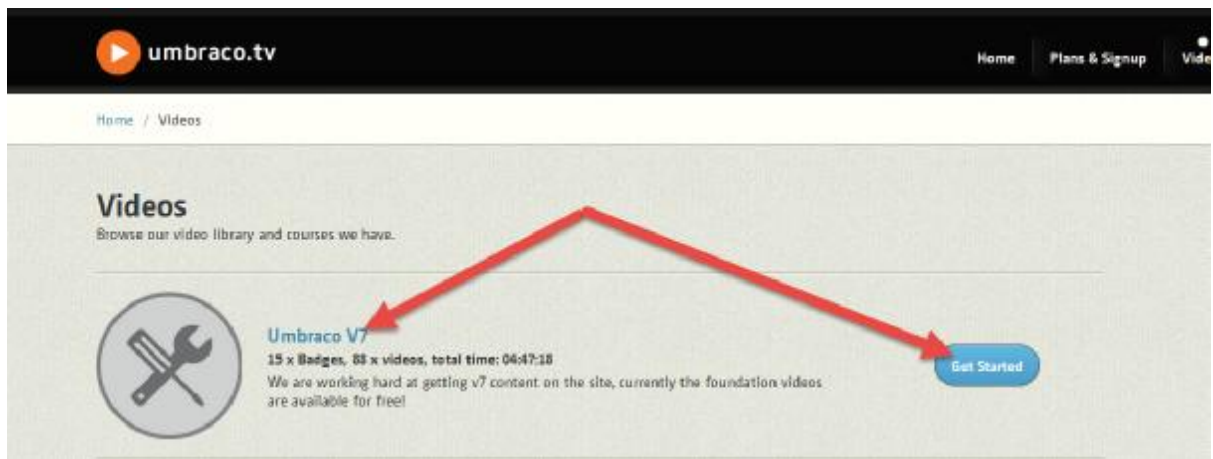

Umbraco.tv provides video training with accompanying documentation. The Basic documentation which you will need to maintain content for your area is free. You do not have to sign up.

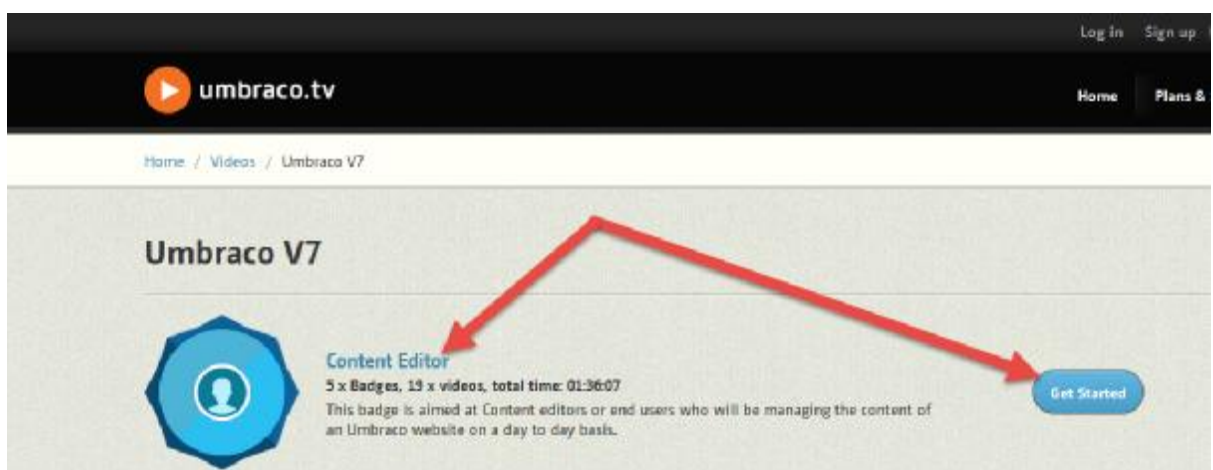

Click the Videos menu item to get started.

Click the Umbraco V7 link or Get started to begin.

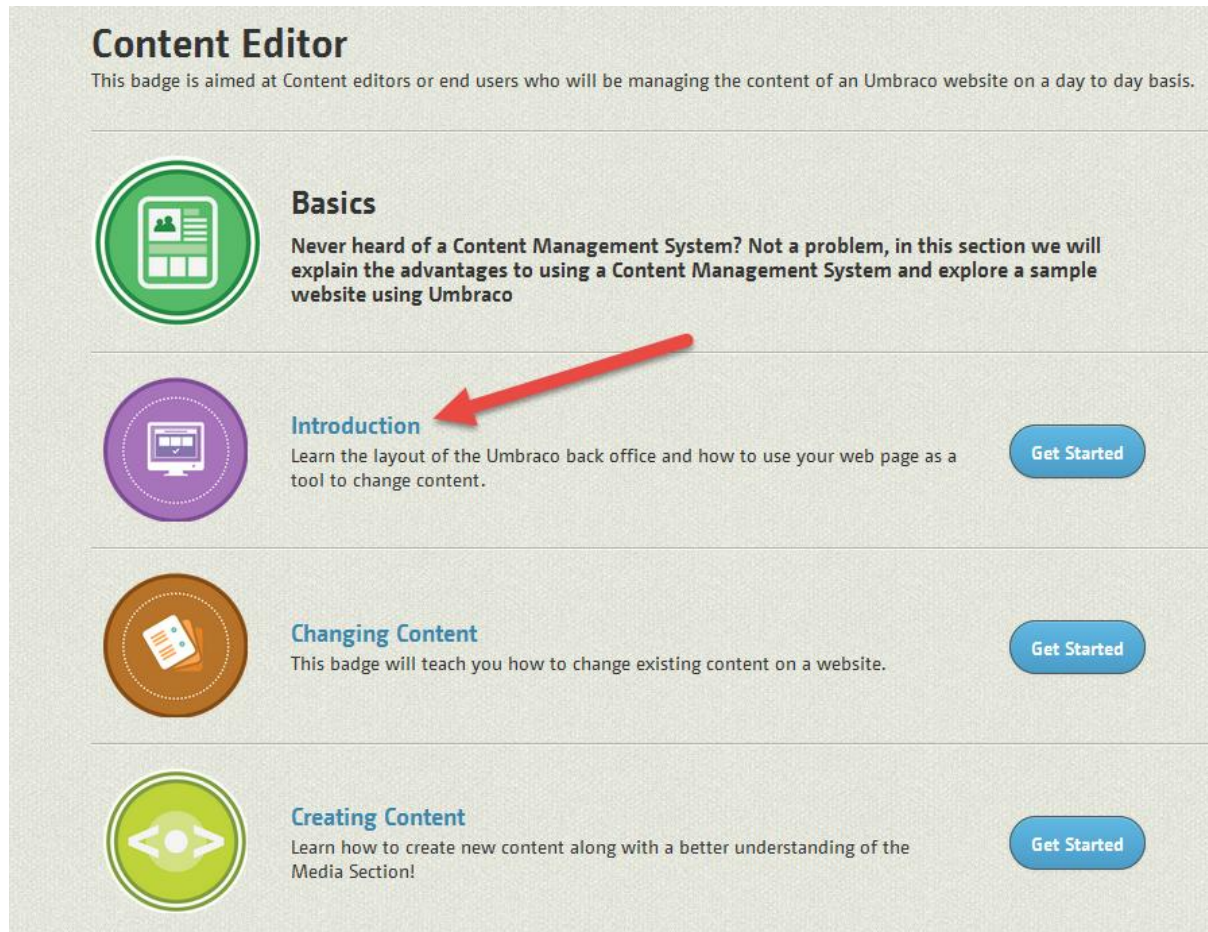

You will be learning the Content Editor for creating your web site pages. Click the Content Editor link or Get started to begin.

You will only need the Basics section. This is the free training area.

Start with the Introduction and work through the sub-sections and then complete the Changing Content and Creating Content sections.

**Content Editor**  
This badge is aimed at Content editors or end users who will be managing the content of an Umbraco website on a day to day basis.

- Basics**  
Never heard of a Content Management System? Not a problem, in this section we will explain the advantages to using a Content Management System and explore a sample website using Umbraco
- Introduction**   
Learn the layout of the Umbraco back office and how to use your web page as a tool to change content. [Get Started](#)
- Changing Content**  
This badge will teach you how to change existing content on a website. [Get Started](#)
- Creating Content**  
Learn how to create new content along with a better understanding of the Media Section! [Get Started](#)

Under each training video is a link to the Documentation which is useful while running the video.

This the Basics lesson plan and times for the videos so you can set your training schedule. If you are also following the documentation the actual lesson will obviously take longer.

Area	Subsection	Approximate time in minutes
