

David Stonier-Gibson manifesto

I am excited by the prospect of working with a committee comprising experienced “oldies” and young, energetic newbies. They are all action people. It was a condition of my President nomination that **Harry, Stewart** and **Rob** nominate. Those experienced people, plus John Swale, bring stability and continuity to the team.

The young ones: Steve and **Hugh** have already proven their worth and shown us how young blood adds energy, brings in fresh ideas. Steve initiated several innovative projects; Hugh runs the newsletter and social media communications. They have proven their worth!

The four newbies could be future custodians of our club; they need to get exposure now, bringing energy, enthusiasm:-

Flynn, hands-on tradesman with a level head and practical skills. Young but definitely wise beyond his years

Dave, sound engineer/creative thinker running his own business.

Aavon, electrical and automotive engineer with good human relation skills. Secretary of his church.

Paul, nurse by training, working in a public facing job. An empathic ideas man.

My **dream team**: A blend of youth and experience, a selection of skills and personalities. My task is to keep the balance and extract the energy, stimulate innovation.
