

It has been an honour for me to serve as a member of the current committee. I seek your support in serving for another term, as I feel that this is a great club for members of all ages, that with the right governance once again, can become even better.

This committee term I have focused on marketing efforts for the club. I have assisted with social media marketing by highlighting as many club activities as possible through Facebook, in the hope of enticing new members of all ages to our club.

I have also recently taken on the editorship of PC Update and see this as a way of keeping existing members informed and engaged with the right mix of articles, as well as attracting new members through these same interesting article and descriptions of the club's activities.

If re-elected I would like to continue to assist with marketing. The club is doing well, but I think it has to continue to strive to attract new members of all ages, and I have ideas to offer here. I believe there is particularly an opportunity to create new offerings around programming, robotics, photography and videography to attract much younger members (under the age of 18) to our club and I would like to take an active role in helping the club to reach this demographic, which would further shore up our long term future.
