

I have re-nominated for a position on committee because my experience as Treasurer for the past two years has given me a comprehensive understanding of the financial side of the operations and I feel that that experience can allow me to contribute to the smooth running of committee and to give valuable guidance to the incoming Treasurer. Some of the gains that have been made during the past year include:

- Further development of written procedures and good governance of the club,
- A satisfactory conclusion to disputes with a former employee,
- Steady improvement of the new Membership Management System,
- Minimising the annual financial deficit experienced by the club over the past years.

Working with the current committee has, like the previous, been an absolute pleasure because of the *esprit de corps* and willing cooperation. I would like to experience that pleasure again for a further year.
